### OFFICE OF LEGISLATIVE COUNSEL

Monday - 5 May 1975

25X1

1. (Unclassified - DFM) Received a call from Bill Jones, INR, who is tasked with responding to a letter to Dr. Kissinger from Otto Fiedler, Chairman of the Board of Governors of NCICA. Jones had no idea of the full name of this organization and asked our assistance because the contents of the letter suggested the organization was related to counterintelligence. After checking with Central Reference Service, I informed Jones that the organization is the National Counter Intelligence Corps Association.

25X1

2. (Confidential - DFM) In Mr. Cary's absence, took a call from  DIA. He has been tasked with responding to a letter to Secretary Schlesinger from Representative Patricia Schroeder (D., Colo.) regarding the Sam Adams article in the May issue of Harper's magazine.

25X1

 cited the fairly recent example of CIA-DIA cooperation in responding to inquiries of Representative Les Aspin (D., Wis.), and thought a coordinated effort would also be appropriate on this subject. I told him that the DDI was currently preparing a response from the Agency's point of view and that the IC Staff may have been working on a response from the entire intelligence community viewpoint. I promised to check on the possibilities of coordination and get back to him.

8. (Unclassified - GLC) Called Guy McConnell, Senate Appropriations Committee staff, and alerted him to the fact that we were sending him a copy of the Director's reply to Senator Edward Kennedy's request of 24 April for answers to questions concerning electronic surveillance. I told him we were sending copies to our Senate Subcommittees to keep them informed.

9. (Unclassified - GLC) Jim Oliver, Office of Management and Budget, called concerning our letters to OMB on H. R. 1531 and H. R. 1532, Representative Elizabeth Holtzman's bills on appropriated funds and covert action programs respectively. He asked if we had been in touch with the House Armed Services Committee recently on these bills to see if they anticipated any action. I said we had not but we would contact them today. He said if we can be sure the bills will die on their own accord, OMB will pass the letters. He said that CIA was the only agency that has been asked for comments.

10. (Unclassified - GLC) Jay Sourwine, Senate Internal Security Subcommittee staff, called and asked if we could check into an item in Saturday's Washington Post concerning a Mr. An, from the Peking Embassy in Toronto who allegedly was ousted from Toronto because he was caught spying. Sourwine said he asked the FBI for information on this man but they said he was "not their baby" that it was strictly up to the Mounties. I told him I would let him know if we had anything on this.

Later Sourwine called and asked if we could tell him whether or not [redacted] of the Subcommittee staff, ever worked for the Agency. I said I would check.

11. (Unclassified - GLC) [redacted] DIA, called concerning the letter they received from Representative Patricia Schroeder concerning the Sam Adams article. He said he had talked with [redacted] who said the DIA and CIA letters were almost identical. [redacted] said he hoped we could cooperate with each other on our replies, as we had done on a letter to Representative Les Aspin some months ago. I told him we were working on the Adams issue and would let them know before we responded to Schroeder. I told [redacted] about the many calls we have been receiving from Representative Aspin's staff people on various subjects. He said everytime the Secretary of Defense goes up on a budget presentation they get inquiries. We agreed to keep in touch.
